

Gender-Balanced Inbreeding in the Pedigrees of Outstanding Runners

by Kathleen Irwin

Most people understand the concept of **inbreeding** when it comes to Thoroughbred pedigrees. Anytime an ancestor appears more than once in the 5-cross pedigree, this is called "inbreeding." The following example shows a horse inbred to Danzig. (See colored blocks)

PEACE ENVOY (FR) b. C, 2014 {13-c} DP = 1-2-4-1-0 (8) DI = 1.67 CD = 0.38 - GSV = 56.03 - 12 Starts, 3 Wins, 2 Places, 1 Shows Career Earnings: £122,067 in

Gender-balanced inbreeding occurs when the ancestor appears as the progenitor of offspring of both genders in the pedigree of the subject animal. For instance, a Northern Dancer son in one part of the pedigree and a Northern Dancer daughter in another part. Or to go one better, a Northern Dancer son producing a daughter, and a Northern Dancer daughter producing a son.

When perusing pedigrees, I often see successful runners which have resulted from one Northern Dancer sire line over another Northern Dancer sire line, and there is nothing wrong with that. But it is my experience that a sort of vigor and stability is added when opposing genders are woven into the tapestry of inbreeding.

ANIMAL KINGDOM (USA) ch. C, 2008 {1-h} DP = 2-0-6-0-0 (8) DI = 1.67 CD = 0.50 - GSV = 59.40 - 12 Starts, 5 Wins, 5 Places, 0 Shows Career Earnings: \$8,387,500

In the **Animal Kingdom** pedigree above, you see that his Lyphard inbreeding is actually beautifully balanced by gender. The first Lyphard produces a daughter who produces a son. The second appearance of Lyphard shows him producing a son who produces a daughter.

French Derby and Guineas winner **Lope De Vega** possesses a similar pedigree exhibiting gender-balanced inbreeding. This time, the duplicated individual is French Champion **Machiavellian**. It is interesting to note that Machiavellian himself has a gender-balanced pedigree, which you can see at this [PedigreeQuery link](#).

Another excellent runner with gender-balanced inbreeding is **Prized**. The winner of the Breeders' Cup Turf and the Molson Export Million has about the most beautiful pedigree I have ever seen, as far as gender balance goes.

In his 5th generation you will see the stallion Bull Dog twice. In the first appearance, he has a son who has a daughter who has a daughter who has a son. In the next appearance of Bull Dog, he has a daughter who has a son who has a son who has a daughter. It is a perfect mirror image of opposing genders. This may be seen easier in the illustration below:

BULL DOG > son > daughter > daughter > son
 BULL DOG > daughter > son > son > daughter

Another great race horse with gender-balanced inbreeding to Bull Dog was the unforgettable **John Henry**.

One of my favorite stallions of all time was **Monsun**. When you look at his pedigree, the first thing that pops out is that he is inbred to full siblings Kaiserkrone and Kaiseradler in his fourth generation. That is another neat inbreeding trick altogether. But his gender balance comes from Hyperion in the 5th generation.

MONSUN (GER) dkb/br. H, 1990 {8-a} DP = 0-0-4-1-1 (6) DI = 0.50 CD = -0.50 - GSV = 69.97 - 23 Starts, 12 Wins, 5 Places, 1 Shows Career Earnings: DM 2,088,55
